Education

Electrical and computer engineering/computer engineernig

engineer with a strong foundation in electrical and computer engineering. Experienced in developing and implementing innovative solutions to complex technical challenges. Proficient in programming languages and software development. Adept at collaborating with cross-functional teams to achieve project goals and deadlines. Committed to continuous learning and staying current with industry trends. Seeking opportunities to leverage my technical skills and expertise in a dynamic and challenging environment.

GPA 3.31

Exti exam 73

Skills

Skill	Rating	Skill	Rating
Understanding of computer hardware and software systems	● ● ● ● ○	Problem-solving skills and analytical thinking	● ● ● ● ●
Knowledge of data structures and algorithms	● ● ● ● ○	programming languages such as C++, Java, Python, and SQL	● ● ● ● ○
Understanding of networking and cybersecurity principles.	● ● ● ● ○	Project management skills to plan and execute complex technical projects	● ● ● ● ○
Ability to troubleshoot and debug complex technical issues	● ● ● ● ○	Datacom and computer networking	● ● ● ● ○

Profile

I am a highly motivated and dedicated computer engineering graduate. I have a strong technical background and a passion for problem-solving. I am eager to apply my skills and knowledge in a challenging and dynamic environment

Certificates

• Huawei HCIA- datacom certificate

Projects

Student security and attendance management system

The "Student Security and Attendance Management System" is a comprehensive solution designed to ensure the safety and well-being of students while streamline attendance tracking processes. This system utilizes advanced technology to monitor student movements within school premises, verify their attendance in real-time, and generate reports for school administration. By implementing this system, schools can enhance security measures, improve student accountability, and optimize overall operational efficiency.
